

at State Highway 188, just over one-half a mile;

(7) Then in a northeasterly direction about 1,000 feet on State Highway 188, to the intersection of Mack Road;

(8) Then east on Mack Road to the intersection of State Highway Y, about 3 miles;

(9) Then follow State Highway Y in a generally northeasterly direction onto the "Lodi, Wisc." quadrangle map and continue in a northeasterly direction to the intersection with State Highway 60;

(10) Then in a northeasterly direction on State Highway 60 to the intersection with State Highway 113 in the town of Lodi;

(11) Then in a northwesterly direction on State Highway 113 to where it crosses Spring Creek the second time just before Chrislaw Road;

(12) Then follow Spring Creek in a northwesterly direction to where it enters Lake Wisconsin, the point of beginning.

[T.D. ATF-352, 59 FR 539, Jan. 5, 1994]

#### § 9.147 Hames Valley.

(a) *Name*. The name of the viticultural area described in this section is "Hames Valley."

(b) *Approved maps*. The appropriate map for determining the boundary of the Hames Valley viticultural area is one U.S.G.S. 15 minute series topographical map, titled Bradley Quadrangle, California, edition of 1961, with a scale of 1:62,500.

(c) *Boundary*. The Hames Valley viticultural area is located in southern Monterey County in the State of California. The boundary is as follows:

(1) Beginning at the southeast corner of section 26, T. 23 S., R. 10 E., which coincides with the point where the 640 foot contour line crosses the Swain Valley drainage, the boundary proceeds in a straight line across section 26 to the northwest corner of section 26, T. 23 S., R. 10 E.;

(2) Then west northwest in a straight line across sections 22, 21, 20, and 19, T. 23 S., R. 10 E., to the northwest corner of section 24, T. 23 S., R. 9 E.;

(3) Then southeast in a straight line across sections 24, 25, 30, 31, and 32, to the southeast corner of section 5, T. 24 S., R. 10 E.;

(4) Then east southeast in a straight line across section 9 to the southeast corner of section 10, T. 24 S., R. 10 E.;

(5) Then east southeast in a straight line for approximately 2.25 miles to Hill 704, located in section 18, T. 24 S., R. 11 E.;

(6) Then north northwest in a straight line for approximately 1.35 miles to Hill 801, located near the northwest corner of section 7, T. 24 S., R. 11 E., and then continue in a straight line to the northwest corner of section 6, T. 24 S., R. 11 E.;

(7) Then in a generally northwesterly direction along the Salinas River for approximately 1 mile to where the Swain Valley drainage enters the Salinas River about .11 mile south of the northern boundary line of section 36, T. 23 S., R. 10 E.;

(8) Then in a westerly direction for approximately .75 mile along the Swain Valley drainage to the southeast corner of section 26, T. 23 S., R. 10 E., the point of beginning.

[T.D. ATF-356, 59 FR 14100, Mar. 25, 1994]

#### § 9.148 Seiad Valley.

(a) *Name*. The name of the viticultural area described in this section is "Seiad Valley."

(b) *Approved map*. The appropriate map for determining the boundary of the Seiad Valley viticultural area is a U.S.G.S. 7.5 minute series topographical map of the 1:24000 scale, titled "Seiad Valley, Calif.," 1980.

(c) *Boundary*. The Seiad Valley viticultural area is located in Siskiyou County, California. The boundary is as follows:

(1) The beginning point is the intersection of the 1600 foot contour line with the power transmission line north of the Klamath River, near Mile 130;

(2) From the beginning point, the boundary follows the 1600' contour line in a generally northeasterly direction until it reaches the intersection of an unnamed light duty road and an unimproved road just west of Canyon Creek;

(3) The boundary then follows the unimproved road north to its end, then goes east in a straight line until it reaches the 1800' contour line;

(4) The boundary then follows the 1800' contour line in a northeasterly direction to the point, near Sawmill

Gulch, where the contour line crosses Seiad Creek and turns south and west;

(5) The boundary continues to follow the 1800' contour line as it proceeds southwest for approximately 4.5 miles, then turns sharply south-southeast for approximately 0.3 miles, until the contour line turns sharply east at a point just north of the Klamath River;

(6) The boundary then diverges from the 1800' contour line and proceeds south-southeast in a straight line, across the Klamath River and State Route 96, until it intersects with the 1600' contour line;

(7) The boundary then follows the 1600' contour line south and west, then north and west, roughly following the course of the Klamath River, until it reaches an unnamed peak 1744 feet high;

(8) The boundary continues along the 1600' contour line as it diverges from the Klamath River and proceeds south, just to the east of an unnamed light duty road, to the point where that road crosses Grider Creek;

(9) The boundary diverges from the contour line and proceeds west in a straight line across the road and Grider Creek until it intersects with the 1600' contour line on the west side of Grider Creek;

(10) The boundary then follows the 1600' contour line north, west and north again until it reaches a point where the contour line turns west, just south of the Klamath River;

(11) The boundary diverges from the 1600' contour line and proceeds in a straight line in a northeasterly direction, back to the point of beginning.

[T.D. ATF-357, 59 FR 26114, May 19, 1994]

#### § 9.149 St. Helena.

(a) *Name.* The name of the viticultural area described in this section is "St. Helena."

(b) *Approved maps.* The appropriate maps for determining the boundary of the St. Helena viticultural area are three U.S.G.S. 7.5 minute series topographical maps of the 1:24,000 scale. They are titled:

(1) "St. Helena Quadrangle, California," edition of 1960, revised 1993.

(2) "Calistoga Quadrangle, California," edition of 1958, photorevised 1980.

(3) "Rutherford Quadrangle, California," edition of 1951, photorevised 1968, photoinspected 1973.

(c) *Boundary.* The St. Helena viticultural area is located in Napa County in the State of California. The boundary is as follows:

(1) Beginning on the Rutherford Quadrangle map at the point of intersection between State Highway 29 and a county road shown on the map as Zinfandel Avenue, known locally as Zinfandel Lane, the boundary proceeds in a southwest direction along Zinfandel Avenue to its intersection with the north fork of Bale Slough (blue line stream) near the 201 foot elevation marker;

(2) Thence in a northwesterly direction approximately 2,750 feet along the north fork of Bale Slough to a point of intersection with a southwesterly straight line projection of a light duty road locally known as Inglewood Avenue;

(3) Thence in a straight line in a southwesterly direction along this projected extension of Inglewood Avenue approximately 2,300 feet to its intersection with the 500 foot contour line in Section 7, Township 7 North (T7N), Range 5 West (R5W);

(4) Thence along the 500 foot contour line in a generally northwesterly direction through Sections 7, 1 and 2, to its intersection of the western border of Section 2, T7N, R6W;

(5) Thence northerly along the western border of Section 2 approximately 500 feet to its intersection with Sulphur Creek in Sulphur Canyon in the northwest corner of Section 2, T7N, R6W;

(6) Thence along Sulphur Creek in an easterly direction approximately 350 feet to its intersection with the 400 foot contour line;

(7) Thence along the 400 foot contour line in a generally easterly, then northwesterly, direction past the city of St. Helena (on the St. Helena Quadrangle map) to a point of intersection with a southwesterly straight line projection of the county road shown as Bale Lane in the Carne Humana Rancho on the Calistoga Quadrangle map;

(8) Thence along the projected straight line extension of Bale Lane in
